

Transformable Pouf

BJ-EMPT

Arrange it to the most comfortable position. Ideal for spasticity and low muscle tone

This pouf is the result of innovation and testing with many users. It is designed to adapt to every person and situation, and is useful for people with **spasticity** or **poor muscle tone**. This also pouf allows wheelchair users to **change posture or be in a comfortable position that permits their participation in an activity or conversation**. Our poufs are made with a **highly resistant, pleasant material**, and are filled with micro balls that adapt to the shape of the body.

This pouf can be perfectly adapted to each individual. It is suitable for those who have poor muscle tone or spasticity. As with all our furniture, vibration can be incorporated.

You can order the poufcase/cover by separate together with its stuffing (BJ-FEMPT).

Dimensions: 140 x 180 cm.
