

SHX Lamp

BJ-EX50

Amazing multi-coloured lamp

This incredible lamp changes color in coordination with the SHX System. Its powerful, blurred light creates an effect that **captures the attention and creates a very special ambiance.**

As it is part of the SHX System, you can **select the color** of its light with any of the system controllers or it can **change automatically** depending on the image or video selected, or even voice signals.

- Works on 230V
- DMX protocol
- Is part of the SHX System
- Dimensions: 35 cm in diameter and 140 cm in height
